

National Numeracy Day dates

National Numeracy Day is celebrated in May every year.

Here are some historical events that happened in May:

- 1536** Henry VIII's wife Anne Boleyn was beheaded
- 1796** The first smallpox vaccine was introduced by Dr Edward Jenner
- 1945** VE Day celebrated the end of World War Two in Europe
- 2018** The first National Numeracy Day was held

Can you draw a timeline from 1536 to now? Then can you add any important dates you know that fit in this timeline? It could be historical events or important dates in your own family history. Sometimes you could put two dates, for example the First World War was from 1914 to 1918 and lasted 4 years.
